## HKIAP Spring Retreat 2024 Connecting to our Bodies, our Souls and our Cultural Roots

This Spring residential retreat at Cheung Chau is a unique occasion on the HKIAP calendar when analysts, routers and members gather together in a relaxed setting to connect and ponder symbolic material from the unconscious.

Presentations and discussions on a chosen theme alternate with relevant film, music etc., This is an opportunity for quiet reflection in the countryside. The “being with” the imagination in an unhurried way allows meaning to emerge is the essence of analytical work, and the retreat experience is therefore highly recommended to HKIAP members, especially for routers / members in the ongoing development of their work as analysts.

### Dream work and body work in the mornings

The morning sessions will consist of body work and dream work. In the first morning, there will be an experiential session on body work. In the second morning, we are going to have a social dream matrix by sharing our own dreams.

### Presentations and discussions

Presentations on certain analytical themes followed by discussions will be arranged during the 3-days.

If you would like to contribute a presentation related to the theme, we would be delighted to hear from you by the end of February 2024.

### Movie night and script reading

We are planning to play the movie “Drive my Car” and followed by post-movie discussion. We also experiment on the format of script reading, choosing a classical Chinese opera followed by reflecting on the group counter-transference of the play.
